

TASK 3 / PRODUCT MANAGEMENT

PRODUCT ROADMAP

A 12-week plan that turns the parking problem into a focused MVP.

PARKEASY

Smart Parking Finder & Reservation App

A visual case study • Beginner-friendly • Ready for submission

From ideas to a buildable roadmap

A roadmap is not a list of everything we could build. It is a decision about what matters first.

MoSCoW — What comes first?

MUST HAVE

GPS/location
Parking search
Availability
Reservation
Pricing
Navigation

SHOULD HAVE

Digital payment
Booking history
Notifications

COULD HAVE

Ratings & reviews
EV charging
AI parking prediction

WON'T HAVE — YET

Social parking
Gamification

Deferred from MVP

12-WEEK ROADMAP

01–04	DISCOVER & DESIGN	Research • competitors • requirements • UX/UI • technical plan
05–08	BUILD THE MVP	Login • GPS • search • availability • reservation • payment
09–12	TEST & LAUNCH	Testing • user feedback • bug fixes • improvements • launch

MILESTONES

M1 Research complete → M2 Design ready → M3 Core MVP → M4 Reservation ready → M5 User testing → M6 Launch

Roadmap Principle

Build the smallest useful product first. The MVP focuses on the core parking journey instead of adding features that do not solve the main problem.
